Ventura County Transportation Commission

Proposed
Disadvantaged Business Enterprise Overall Goal
Federal Fiscal Years 2018/19 – 2020/21

I. Proposed DBE Goal for Federal Transit-Funded Projects

The Ventura County Transportation Commission (VCTC) has developed an overall Disadvantaged Business Enterprise (DBE) goal that would apply to federally-funded transit contracts awarded in the next three federal fiscal years (FFYs) beginning October 1, 2018 and ending September 30, 2021. The proposed overall goal for FFYs 2018/19, 2019/20, and 2020/21 is 5%. This report describes the methodology utilized to calculate the proposed overall DBE goal, and the public notice and consultation process.

II. Introduction

The United States Department of Transportation (USDOT) requires recipients of USDOT funds to establish DBE goals to ensure that small disadvantaged business enterprises (DBE) can compete fairly for federally funded transportation-related projects. The Federal Transit Administration (FTA) requires the development of an overall triennial DBE goal when FTA funding recipients anticipate awarding more than $250,000 in FTA funds in prime contracts (excluding transit vehicle purchases) in a federal fiscal year in the next three federal fiscal years. Because it is anticipated that about $14 million in non-vehicle purchase federal transit funds will be awarded in the next three FFYs, VCTC is required to develop a triennial DBE goal for contracts let out by VCTC and its five sub-recipients: City of Camarillo, City of Ojai, City of Oxnard, City of Thousand Oaks and the Area Agency on Aging.

VCTC has an existing FTA-approved overall goal that expires September 30, 2018. Overall goals are required to be submitted to FTA by August 1st for the upcoming FFY triennial period.

USDOT has established a two-step process to assist funding recipients to calculate the DBE goal[1]. Step 1 of the goal setting process is to determine a measurement of the actual relative availability of DBEs to perform the types of contracts that VCTC and its sub-recipients intend to let. In other words, the analysis is an attempt to determine what

[1] US Department of Transportation, Tips for Goal-Setting in the Disadvantaged Business Enterprise (DBE) Program, Updated December 22, 2014. https://www.transportation.gov/osdbu/disadvantaged-business-enterprise/tips-goal-setting-disadvantaged-business-enterprise

percentage of DBEs represent all firms that are ready, willing and able to compete for DOT-assisted contracting. Step 2 of the goal setting calculation process is intended to adjust the base figure calculated in Step 1 to make it as precise as possible. Under the rule, all evidence available should be used to determine whether such an adjustment is necessary. If the evidence does not suggest such an adjustment is necessary, then no adjustment should be made.

The proposed goal of 5% can be achieved entirely through race- and gender-neutral measures. In accordance with the decision by the US Court of Appeals for the Ninth Circuit in *Western States Paving Company v. United States and Washington State Department of Transportation*, USDOT recipients in the Ninth Circuit which includes California cannot consider the use of a race- or gender-conscious goal unless a finding of statistically significant disparity (disparity study) has been made for the ethnic and gender groups to be included in the race- or gender-conscious goal. VCTC has not conducted a disparity study and, therefore, did not consider the use of a race- or gender-conscious goal as part of the overall goal. However, based on the results of the analysis described in this report, VCTC believes it can achieve the proposed base goal of 5% calculated in Step 1 entirely through race- and gender-neutral measures.

III. DBE Goal Setting Methodology

As noted in section II (Introduction), the DBE goal was calculated using the two-step process described in the "Tips for Goal Setting" guidance provided by USDOT. The two-step process for calculating the overall DBE goal is to: Step 1: Calculate a base figure to determine the relative availability of DBEs; Step 2: Adjust the base figure if necessary.

For Step 1, the Caltrans DBE Directory and US Census data were used to calculate the base figure of the relative availability of DBEs to perform the types of contracts that VCTC and its sub-recipients intend to let. A detailed description of Step 1 and associated calculations and assumptions are provided in section IV.

For Step 2, factors including past DBE participation and a bidders list of contractors/sub-contractors was utilized to determine if the base figure calculated in Step 1 should be adjusted. A description of the Step 2 process is provided in section V.

III.a. Determining the Local Market Area

The boundaries of the local market area were determined based on where most of the contractors and subcontractors that submitted bids and awarded contracts in past years are located. Bidder and awardee data from FFYs 2011/12 through 2017/18 was utilized to determine the local market area. Because 78% of the bidders and 66% of awardees were geographically located in Ventura and Los Angeles counties, it was determined that the local market area is Ventura and Los Angeles counties. A summary of the location of bidders is provided in Table 1, and the location of firms awarded contracts is provided in Table 2. The names and location of bidders and firms awarded contracts is provided in Attachment 1 (Bidder's List).

Table 1
Location of Bidders: FFYs 2011/12 – 2017/18

IV. DBE Goal Setting Methodology

The purpose of Step 1 is to determine what percentage of DBEs represent all firms that are ready, willing, and able to compete for USDOT-assisted contracting. This percentage is calculated by dividing the number of DBEs ready, willing and able to bid for the types of work to be funded during the three-year period, by the number of all firms (DBEs and non-DBEs) ready, willing and able to bid for the types of work to be funded during the same three-year period. The calculation is summarized in the equation below:

$$Step\ One\ Base\ Figure = \frac{Ready, willing\ and\ able\ DBEs}{All\ ready, willing\ and\ able\ businesses\ (Including\ DBEs\ and\ Non-DBEs)}$$

To complete the calculation, the first item of work was to develop a list of contracts that VCTC and its sub-recipients intend to let in FFYs 2018/19 – 2020/21. This list of anticipated projects/contracts/subcontracts is provided in Table 3. A total of 34 anticipated prime contracts and 13 subcontracts were identified that total $16.176 million in federal transit funds.

Next, the **DBE firms** that are ready, willing and able to perform the anticipated work were identified using the California Unified Certification Program (CUCP) Statewide DBE Directory. DBE firms that indicated their willingness to work in Caltrans District 7 (Ventura and Los Angeles Counties) and located in Los Angeles and Ventura Counties were selected as ready, willing and able DBEs. NAICS codes and Work Codes were used to identify DBE firms that are aligned with the scope of work of the anticipated contracts. The list of DBE firms is provided in Attachment 2 titled “DBE Directory” and summarized in Table 8 on page 10.

The number of **all firms** ready, willing and able to perform the anticipated contracts was obtained from the US Census Bureau, American Factfinder, Geographic Area Series:

County Business Patterns, 2016 Business Patterns for Ventura County and Los Angeles County by NAICS code. The output from this search is summarized in Table 6 and 7 on the next page.

The worksheet provided by FTA was utilized to calculate the Step 1 non-weighted and weighted Base Goal calculations. The non-weighted Base Goal calculation, presented in Table 9, resulted in 6.38% in overall availability of DBE firms. USDOT recommends that weighting be used to help ensure that the Step 1 Base Goal calculation is as accurate as possible. The weighted Base Goal calculation, presented in Table 10, resulted in 4.57% (say **5%**) in overall availability of DBE firms.

Table 8 shows the weight of each type of work by NAICS code. This weighting is used to calculate the weighted base goal presented in Table 10.

Table 8
Step A: Weight of each type of work by NAICS Code

Step A - Determine the weight of each type of work by NAICS Code:

	NAICS Code	Project	Amount of DOT funds on project:	% of total DOT funds (weight)

V. Step 2 Base Figure Adjustment

The purpose of Step 2 in the goal setting calculation is to adjust the Step 1 figure to make it more precise if necessary. The factors listed below were considered to determine whether such an adjustment is necessary:

- Past DBE participation;
- Bidder's List and DBE participation in past contracts;
- Disparity study conducted in the local market area;
- Data on employment, self-employment education and training, and union apprenticeship programs.

Based on the factors listed above and further described below, it is determined that no adjustment should be made to base DBE Goal figure of 5% which is to be achieved through race-and gender-neutral measures.

V.a. Past DBE Participation

The DBE goals achieved in the previous five federal fiscal years were examined to determine the median DBE participation. As presented in Table 11 on the next page, the median DBE participation for the previous five-year period is 12.5%. The high DBE participation in the past two federal fiscal years is attributed to the award of contracts to one DBE bus transit system contract operator named "Roadrunner Shuttle" who operates the VCTC Intercity Bus System, Camarillo Area Transit, and others. Because Roadrunner Shuttle is in the process of being purchased by RATP-DEV, a non-DBE multinational transit operations company, the DBE availability of transit operators within the Local

Market Area will be significantly different. This means that it is not likely that DBE participation in the next three federal fiscal years will be as high as it was in the past two years given that 49% of the anticipated federal funds in the next three years will fund bus operating contracts.

Table 11
FFY 2013 – 2017 Median Past DBE Participation

Federal Fiscal Year	DBE Participation
2013	0.1%
2014	12.5%
2015	4.8%
2016	20.0%
2017	18.8%
Median	**12.5%**

V.b. Bidder's List and DBE Participation in Past Contracts

When comparing bids and awards from previous contracts that are comparable to the anticipated contracts proposed for the next three federal fiscal years (Construction; Professional, Scientific, and Technical Services; Administrative and Support and Waste Management and Remediation Services; and Truck Transportation) it is possible that the weighted base figure calculated in Step 1 of 5% can be achieved through race- and gender-neutral measures. These measures include awarding prime contracts to DBE prime contractors, encouraging the use of DBE sub-consultants, providing greater outreach to DBE firms regarding contract solicitations/RFPs, and distributing DBE directories to prime contractors. This assertion is supported by the Bidder's List in Attachment 1 that includes DBE firms awarded contracts in past years comparable to contracts proposed in the next three federal fiscal years.

V.c. LA Metro Disparity Study Conducted in the Los Angeles County Local Market Area

The Los Angeles County Metropolitan Transportation Authority (LA Metro) conducted a disparity study in 2017 (LA Metro Disparity Study, BBC Research and Consulting, January 19, 2018) within the Los Angeles County Market Area. The analysis results indicated that most racial/ethnic and gender groups showed disparities on contracts where race- and gender-conscious measures were not in place during the study period. The study further found that overall, minority- and woman-owned businesses exhibited substantial disparities on locally funded contracts and exhibited a disparity on USDOT-funded contracts.

V.d. Data on employment, self-employment education and training, and union apprenticeship programs

In 2015, total jobs in **Ventura County** numbered 349,649, a decrease of 1% from 2007. Between 2007 and 2015, the number of manufacturing jobs in Ventura County decreased by 6.6 percent and construction jobs decreased by 35.7 percent. In 2015, total jobs in **Los Angeles County** numbered 4,424,056, a decrease of 2.1 percent from 2007. Between 2007 and 2015, the number of manufacturing jobs in Los Angeles County decreased by 16.7 percent and construction jobs decreased by 27.8 percent. (Source: SCAG Local Profiles).

There are several self-employment education and training course programs in both Ventura and Los Angeles Counties. The Los Angeles Regional Small Business Development Center Network provides small business entrepreneurs with no-cost, confidential training opportunities such as securing funding, creating a structure and operations in both counties. The LA County Economic Development also provides start-up services training in Los Angeles County. Ventura County Grows Business partners with various local and state organizations that provide an extension array of resources for start-up businesses in Ventura County including creating startup business plans. The Women's Business Center in Ventura County offers a 14-week course providing week-by-week training in organizing, financing, marketing and managing a small business. These are just a few of available training programs for start-up businesses.

There are also several apprenticeship programs available in Ventura and Los Angeles Counties. For example, the Reinforcing Ironworkers Union (Local 416 and 433) offer apprenticeships in installing rebar for construction of highways, buildings, bridges and other structures. The Electrical Training Institute of Southern California offers on-the-job training and supplemental classroom related instruction in association with the International Brotherhood of Electrical Workers Local Union No.11. Also, the Los Angeles Trade-Tech Community College offers an Apprenticeship Education program for various trades (on-the-job and class room instruction).

VI. Public Notice and Consultation Process

This section summarizes the process VCTC followed for consultation regarding its proposed DBE goal. The consultation process schedule is presented below.

Consultation Schedule

June 4, 2018 – Mailing of letter requesting consultation

June 18 – Open consultation meeting

June 20 – End of consultation period

June 22 – Posting of DBE Goal notice

August 1 – End of DBE Goal comment period

On June 4, 2018, VCTC mailed the letter provided in Attachment 3 to the organizations listed in Attachment 4. This letter notified these groups of VCTC's proposed goal and requested consultation. The letter invited recipients to attend a meeting on June 18, 2018 and offered to meet with them separately in their own office. VCTC received no response to its letter, other than one voice mail from an individual asking to be included in VCTC's procurement announcement distribution list. No one attended the June 18, 2018 meeting.

On June 8, 2018, Peter De Haan, VCTC Director of Programming, attempted to make outreach phone calls to the following four of the organizations listed in Attachment 4: The Camarillo Chamber of Commerce; Gold Coast Hispanic Chamber of Commerce; Greater Oxnard Chamber of Commerce; and Economic Development Collaborative of Ventura County. Each of these calls resulted in leaving voice mails or messages for someone to return my call, and there was no return phone call.

Since the attempted consultation did not provide any feedback, VCTC proceeded to post the information on the proposed goal on its website. However, during the public review period VCTC launched a new website, so upon the new website launch the information was reposted. Attachments 5 provides the screen shots of the DBE goal notice posted on the old and new VCTC websites. VCTC received no comments in response to this posting.

Ventura County Transportation Commission

June 4, 2018

Moorpark Chamber of Commerce
18 E. High Street
Moorpark, CA 93021

Dear Sir/Madame:

The Ventura County Transportation Commission (VCTC) has established a Disadvantaged Business Enterprise (DBE) program in accordance with regulations of the U.S. Department of Transportation (DOT), 49 CFR Part 26. VCTC has received Federal financial assistance from the Department of Transportation, and as a condition of receiving this assistance, VCTC has signed an assurance that it will comply with 49 CFR Part 26 to ensure that DBEs have an equal opportunity to receive and participate in DOT–assisted contracts.

Every three years, VCTC is required to set an overall DBE goal that it must either meet, or show that it used good faith efforts to meet, annually. VCTC has calculated its DBE goal for Federal Fiscal Years 2019, 2020 and 2021. The proposed goal is 5%. VCTC used a two-step process to determine this goal as identified in the Federal Transit Administration document "Tips for Goal-Setting in the Disadvantaged Business Enterprise (DBE) Program". The two-step process creates a baseline figure for the relative availability of DBEs and then adjusts the base figure based upon additional evidence, including past experience. The methodology used to calculate the initial baseline figure and any adjustments are explained in the attached report.

As part of the DBE goal-setting process, VCTC is consulting with persons and groups to obtain information concerning the availability of disadvantaged and non-disadvantaged businesses, the effects of discrimination on opportunities for DBEs, and VCTC efforts to establish a level playing field for the participation of DBEs.

Following the consultation, VCTC will post a notice of the proposed overall goals, informing the public that the proposed goal and its rational are available for inspection during normal business hours at our offices for 30 days following the date of the notice, and informing the public that VCTC and DOT will accept comments on the goals for 30 days from the date of the notice.

Our overall goal submission to DOT will include a summary of information and comments received during this public participation process and our responses.

As part of the consultation process, VCTC is scheduling a meeting in its office to discuss how the DBE participation goal is to be established. This meeting will be held **Monday, June 18th at 1:30 p.m.** in the Lobby Conference Room at VCTC's office at 950 County Square Drive in Ventura. VCTC will also schedule in-person meetings at other times if requested, and will come to your office for such a meeting.

If you would like to submit written comments and/or questions, please mail them to:

Peter De Haan, Programming Director
950 County Square Drive, Suite 207
Ventura, Ca 93003

Comments and questions may also be sent via email at: pdehaan@goventura.org

The consultation process is scheduled to end on June 20, 2018; however, VCTC and DOT will continue to accept comments through August 1, 2018.

If you have any questions or would like to meet in person to consult with VCTC, please call Peter De Haan at (805) 642-1591, extension 106.

Sincerely,

Peter De Haan
Programming Director
