SUBJECT: KEY PERFORMANCE INDICATORS AND OUTREACH REPORT

## **RECOMMENDATION**

1. Receive and file ridership and outreach report.

## **BACKGROUND**

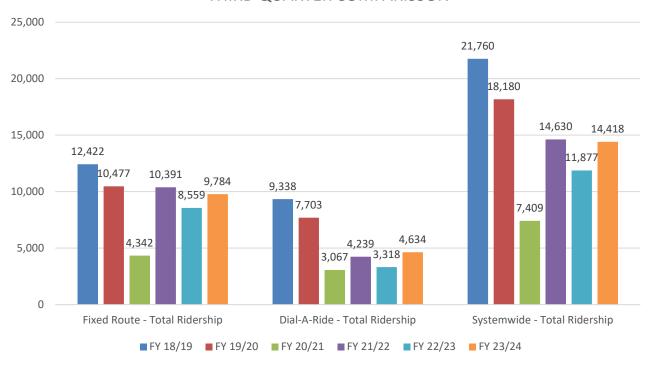

Valley Express service includes four fixed routes serving the cities of Santa Paula, Fillmore, and the unincorporated area of Piru, Dial-A-Ride services for the general public, and complementary ADA paratransit. School tripper service in Santa Paula and Fillmore was suspended in March 2020 due to the COVID-19 pandemic and resumed service in August 2021.

This report provides a Quarter 3 (January-February-March) comparison between key performance indicators (KPI) in FY 23/24 and previous years. In addition, this report provides an update regarding the recent marketing and outreach activities for Valley Express.

#### **Key Performance Highlights:**

- This quarter, Valley Express ridership increased by over 21% percent to 14,418 unlinked passenger trips compared to 11,877 in the same quarter of last year. Fixed route ridership increased by just over 14 percent while Dial-A-Ride ridership increased by nearly 40 percent.
- The Piru route continues to account for nearly three quarters (73%) of fixed route ridership as well as half (50%) of systemwide ridership.
- DAR ridership is currently at 50% of our pre-COVID numbers while Fixed route ridership is at 79%.
- The Fillmore fixed route saw the most ridership recovery this quarter. Ridership nearly doubled from the same quarter last year and it is currently at 142% of FY 18/19 ridership.
- The Santa Paula Tripper saw a 29.4% decrease in ridership but that can seem magnified due
  to the small rider base as it is only a decrease of 30 total rides. This decline is further
  influenced by the unusual rainfall and resulting service cancellation due to road closures.

## MARKETING AND COMMUNITY OUTREACH

Celtis Ventures, Inc. continues to assist us in promoting the Valley Express service within the Heritage Valley. Celtis is currently working on preliminary designs for our new vehicles. They are also formalizing a marketing campaign for promotion of the Fillmore to Moorpark route. The route campaign started with a photo shoot earlier this month. The full campaign will kick off 4-6 weeks before service begins in early August. In April we attended the Fillmore Earth Day event and in early May we attended the annual Senior Health Fair in Santa Paula where we provided complimentary shuttle service to and from the parking lot.

DATE: May 29, 2024

MEMO TO: HERITAGE VALLEY POLICY ADVISORY COMMITTEE (HVPAC)

FROM: MATT MILLER, PROGRAM MANAGER

SUBJECT: FISCAL YEAR 2024/2025 VALLEY EXPRESS BUDGET

## **RECOMMENDATION**

• Approve the Fiscal Year 2024/2025 Valley Express budget.

#### **BACKGROUND**

Pursuant to the Cooperative Agreement for the Heritage Valley Transit Service, the HVTAC will make recommendations to the Heritage Valley Policy Advisory Committee (HVPAC) regarding, among other things, the annual level of service and budget. Following the HVTAC review, the item is then be reviewed by the HVPAC. Once final, the budget is incorporated into the overall agency budget of VCTC. The budget process for VCTC includes a review by a budget and finance sub-committee, subsequent review by the full Commission with final budget adoption by June. This item is to consider recommendation of the Valley Express budget to the Commission for the upcoming fiscal year.

### **DISCUSSION**

VCTC staff presented the draft FY24/25 Valley Express budget to the HVTAC on March 7<sup>th</sup> and to the HVPAC on March 25<sup>th</sup>. The final budget was brough to the HVTAC at the May 13<sup>th</sup> meeting. After thorough discussion and review at all three meetings, the HVTAC approved recommending that the HVPAC consider final approval of the budget.

The FY24/25 budget is higher than it has been in past years, and this is due to the following factors and assumptions:

- 1. Contract provider rate increase that took effect with the newest contract in FY23/24.
- 2. Increase in dial-a-ride service hours due to increased demand.
- 3. Purchase of fifteen (15) replacement service vehicles using FTA and SGR grant funds.
- 4. Implementation of new CMAQ funded Fillmore to Moorpark Fixed Route planned for August 2024.

Over the past year the Valley Express bus service has been funded with a mix of Federal Transit Administration (FTA) recurring formula funds, farebox revenues, and local funding from the member agencies.

In FY24/25 service will be funded with a mix of FTA formula funds, FTA Congestion Mitigation Air Quality (CMAQ) program funds, State of Good Repair (SGR) funds, farebox revenue, and local funding from member agencies.

The net year-over-year increase in the budget is 54%. Please note that the high year-over-year change is due to \$2,683,320 in FTA and SGR grants funds for replacement vehicles with requirement from the cities for the local match. The increase in Contract Services is 18% and is due to contractual increases in the hourly rate and monthly rate, planning for continued increased demand for Dial-A-Ride (DAR) services and the new CMAQ funded Fillmore to Moorpark fixed route.

So far in FY23/24, DAR service hours have increased 22% over last year and staff expect the higher demand to continue through the rest of year and through FY24/25. Hours are expected to be 21% over the FY23/24 projected hours. SB 125 funds will be used to cover the funding gap.

As shown in the table below, the recommended levels of fixed route service will remain the nearly the same except for the addition of 11 months of new service for the Fillmore to Moorpark fixed route. Recommended service level for DAR is 38% higher to plan for higher demand as experienced in FY23/24.

#### RECOMMENDED LEVEL OF SERVICE

Subtotal Dial-a-Ride	19,211 (+38%)	13,962
Total All Services	31,740 (+31%)	24,300

<sup>\*</sup>Hours for the planned Fillmore-Moorpark funded by a CMAQ grant.

### Replacement Vehicles

The FY24/25 budget also includes \$2,375,544 in FTA 5339 Capital and SGR grant funds with a local match of \$307,776 totaling \$2,683,320 for the purchase of fifteen (15) replacement revenue service vehicles which includes new vehicle camera systems and fareboxes.

## **Anticipated Revenues**

The Valley Express has historically utilized revenues from the Federal Transit Administration (FTA) formula funding, passenger fare revenue, State Local Transportation Fund (LTF) revenue each member agency receives and budgets for transit programs and the City of Santa Paula's sales tax Measure "T".

Similar to last year, this budget uses a blend of Federal formula funds, CMAQ grant funds, SGR grant funds fare revenue, and local contributions by member agencies. It is expected that there will be a small carryover funds of agency revenues. The following is a table of the prior five years' budgets for reference.

SUBJECT: UPDATE ON REPLACEMENT VEHICLES

## **RECOMMENDATION**

- Receive and file update on progress of Valley Express vehicles replacement.
- Approve vehicle choices and vehicle graphics and proceed with the order.

## **BACKGROUND**

VCTC, on behalf of Valley Express, received grant funding for replacement vehicles. The Valley Express fleet vehicles have met the end of their useful life benchmark and will be replaced in the fiscal year 2025-2026. The current fleet vehicles were purchased in 2015 and consists of five 12-passenger cutaway buses, five 16-passenger cutaways buses, and five 24-passenger low-floor cutaway buses. The buses are all used interchangeably on DAR and fixed-route services with the largest vehicles being used primarily on the fixed-routes. At the May 2024 HVTAC meeting, VCTC staff presented and recommended vehicle types to replace the existing fleet and provided an update on progress being made toward submitting an order.

## **DISCUSSION**

The FY2024/2025 Valley Express budget includes a total of \$2,683,320 in FTA 5339 capital grant funds, State of Good Repair grant funds and local match to purchase 15 replacements service vehicles. As stated above the current fleet is made up of a variety of cutaway buses that are used for dial-a-ride (DAR) and fixed route service with the smallest vehicles used for DAR service.

While considering vehicle options, staff focused on passenger accessibility, ease of boarding for all passengers, feedback from the public and operational efficiency. With passenger accessibility top of mind, the goal is to decrease the ratio of lift equipped vehicles and increase the ratio or ramp equipped vehicles, if possible. As such, instead of replacing the 15 vehicles with a one for one replacement staff recommends purchasing:

- Five (5) 8-passenger + 2 wheelchair position Dodge Promaster BraunAbility vans
- Six (6) medium-sized 20-passenger 22-foot Diamond cutaways with wheelchair lifts and
- Four (4) larger ARBOC cutaways that seat 24-passengers outfitted with ramps.

All the vehicles can be used on Dial-A-Ride services and fixed-route, however the largest ones will be prioritized for fixed-route. Part of the procurement will include a vehicle technical consultant to assist with pre-build meetings, physical vehicle inspections at the factory, and final acceptance.

Attachment A has images and summary information of the three recommended vehicle types. These vehicles are the same as what was presented at the last HVTAC and HVPAC meetings in March.

The vehicles will be wrapped in a new design that incorporates the new Valley Express logo and brand. Staff worked with Celtis, Valley Express' marketing contractor, to develop options for the new buses. Attachment B as the final options for your consideration.

SUBJECT: UPDATE ON SERVICE BETWEEN THE CITIES OF FILLMORE AND MOORPARK

## **RECOMMENDATION**

Receive and file update on progress of Valley Express Fillmore-Moorpark Route.
 Provide feedback on route path and proposed schedule and launch date.

## **BACKGROUND**

VCTC, on behalf of Valley Express, received CMAQ funding for service between Fillmore and Moorpark.

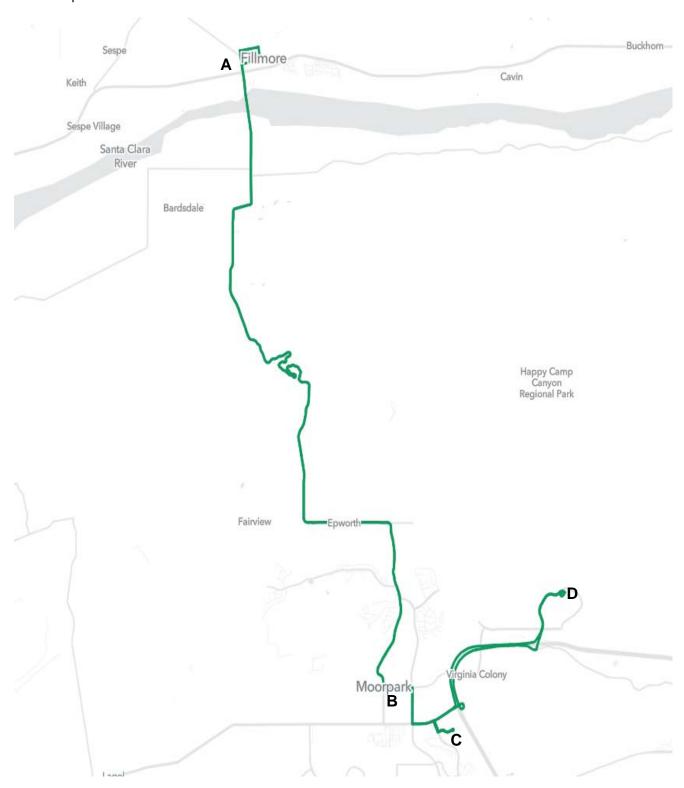

### **DISCUSSION**

### **Route Design**

The new route will provide a direct one-seat ride connecting the cities of Fillmore and Moorpark using the Highway 23/Grimes Canyon corridor. The route will begin at the Fillmore Terminal then proceed to Moorpark stopping at the Moorpark Metrolink station, the Moorpark Marketplace, and the Moorpark College.

This route will connect to eight different existing bus routes as well as Metrolink Commuter Trains. At the Fillmore Terminal passengers can connect to Valley Express' Piru and Fillmore routes as well as the VCTC Intercity Hwy 126 route that connects passengers to Santa Paula and Ventura. At the Moorpark Metrolink station passengers can connect to Moorpark City Transit routes 1 and 2, and both the VCTC Intercity East County route that connects to Simi Valley and Thousand Oaks as well as the VCTC Intercity Cross-County Limited route that connects to Simi Valley, Camarillo, and Ventura. At Moorpark College passengers can also connect to Simi Valley Route 10. This will open up access to Eastern Ventura County that does not currently exist.

## Route Map

## **Service Span**

The route will operate seven days a week. On weekdays there will be nine roundtrips between 6:45 a.m. and 7:00 p.m. On weekends there will be seven roundtrips between 7:30 a.m. and 6:30 p.m. This will allow connections with multiple Metrolink trains throughout the day as well as accommodating school schedules and leisure activities.

While the FY 24/25 budget allows for 540 revenue hours per month, our proposed schedule start with around 400 hours per month allowing room to grow if demand is there. We plan to serve the college on every other trip on weekdays and on two trips on the weekends.

The schedule below is designed to coordinate with the Metrolink train schedule. Once approved, minor adjustments will be made to the Fillmore and Piru routes as well as the Intercity Hwy 126 route to better facilitate connections.

## **Route Launch**

Classes begin at Moorpark College on August 12, 2024. We propose launching the route on August 1. We anticipate that the new transit vans will be delivered sometime in early July. If they are available we will launch the route using those vehicles however, if ridership exceeds capacity we will have to switch to the existing cutaways until the new cutaways are delivered in early 2025.
